

SODA

PLATINUM SODA

Celebrate responsibly.

A photograph of three men in a kitchen setting. Two men in red t-shirts are lifting a third man in a yellow t-shirt and jeans. They are all cheering with their mouths open and fists raised. Large red and black abstract shapes are overlaid on the image. The background shows wooden kitchen cabinets and a tiled backsplash.

# Process of Pure Water

- Water is processed purification that include Micron Filtration, Reverse Osmosis, Ozonation and UV Treatment
- Strict Online process control system monitors quality at every critical step of the process to identify and eliminate contamination
- Good Manufacturing Practice and Good Housekeeping Practice are our tag line of processing
- Samples are drawn regularly and analysed in the in-house laboratory and external competent agency to check pesticide residue level, toxics elements and pathogenic bacteria
- Tests are conducted to check the hygiene level of environment, equipment surface and efficiency sanitation
- Jars and Bottles are washed through automatic machine where washing efficiency for the microbiological parameters are checked
- Purified water and beverage is filled and capped and sealed in containers automatically
- Every container is coded with Batch No and Date of Manufacturing and Expiry with inkjet coding machine
- Packaged Drinking Water is not added with artificial minerals
